

****TOM NEVILL
CHAIR FOR THE SOUTH EAST****

Tom has been campaigning on transport issues and leading Car Free Day for four years.

Tom has supported young people across the South East.

Tom has campaigned to get Josh Babarinde MP elected.

Tom, as South East Chair for 2024, is leading Eastbourne Young Liberals in the General Election campaign.

It has been a great privilege to be the English Young Liberal's Chair for the South East for the term of 2023/24. I am standing again this current year because I am confident that I can build on the previous year. This term has been such a positive experience.

This year...

Through working closely with the other regional chairs and the South East executive, I have gained an understanding of how the Liberal Democrats function at a regional level.

I have engaged with young people in the South East by leading canvassing sessions and leaflet delivery. I also set up a "Youth Talk Series" to give young people the opportunity to discuss the democratic process, which focused on local issues that have impacted their daily lives.

About me...

I'm now a final year University Student studying Urban Design, Planning and Development at Oxford Brookes University.

I'm born and bred from the South East, my home is in Eastbourne, and I return home regularly during my studies.

My particular interest is transport planning; I love buses and cycling too.

From age 16, I was elected as a member of the East Sussex Youth Cabinet, which enabled me to work with a platform on issues such as Knife Crime and Climate Change.

****TOM NEVILL FOR SOUTH EAST CHAIR****

Linking my campaign to national campaign issues

****Sustainable Transport Initiatives****

I am committed to a program for clean seas and rivers in the South East and holding the sewage companies to account.

I will continue to work with the local and national party on this issue.

I am proud to have featured as a tour guide in the Spring Water Festival video, which highlighted the need to reduce single-use plastics and protect our seas and rivers.

****Environmental Initiatives****

This year I have led on Car Free Day in Eastbourne with a closure of Hyde Gardens, with a range of stalls, live music, and free vegan food.

I ran a petition to support Eastbourne's Bus Priority measures. This includes designing attractive bus designs and timetables and supporting the set-up of a 'Bus User Group.'

I took local councillors from Eastbourne to Oxford on a fact-finding mission to see cycling infrastructure.

I have been engaging young liberals in Eastbourne, as this has been my priority.

I attended a New Year's Eve party in Kingston (Canterbury) with the South East Executive to strengthen links within the South East, and I will continue to have meetings with the executive.

I have been appointed as Eastbourne's Membership Officer for Young Liberals.

****Youth empowerment through digital wellbeing within the Young Liberals****

If elected, I will continue to work on these issues above and spend more time in other areas of the South East.
