

Manifesto in the style of a briefing document titled "Federal Council Agenda Item XXX"
majority of text redacted with black ink, unredacted text in a typewriter font

Photo of OJL phone canvassing is held on by a paper clip, below reads "OJL for Federal Council"

Pledge 1: Keep asking the right questions - The main job of a federal council rep is to ask questions that you care about, whether it's trans rights or YL funding, I will continue to ask the right questions as I have done for the last year

Pledge 2: Better organised reps - organisation has been a challenge this year, next year I will lobby the executive to introduce a head of delegation selection process to assist in organising a YL+ Delegation of friendly reps

Pledge 3: Lobby for reform of federal council - Before the next federal elections, federal council needs to consider what its role in the party is more widely. Whilst it is a scrutiny body, it poses so many opportunities but reform to its powers and remit is needed

Re-elect someone who asks the right questions - Vote OJL
