WHAT WOULD I DO?

I have a real passion for Politics & Public Service, I will tirelessly help champion our goals, here are some of my ideas to help this:

- **MAKE COMMUNICATION MORE ACCESSIBLE**, Introduce measures to make participation with those with SEND easier (conference etc), as someone who is neurodivergent, the stress of communication can sometimes be so huge.
- **GET MORE YOUNGER PEOPLE IN YOUNG LIBERALS**: Young Liberals is very much made up of Young Adults, but we need to help the younger generation (my generation) to engage in politics and community service, we've seen what low engagement can do, lets stop the cycle.
- **INCREASE ENGAGEMENT ON SOCIAL MEDIA**: The big 2 parties use clever tricks to improve engagement, we should do the same, present young liberal policy in a way which appeals to young people (especially the under 18's), stop the scroll, help build Young Liberals social medias up so we can champion our goals much easier.
